Articles are stored as files at LISTSERV@UHUPVM1. To retrieve a
file, send the GET command given after the article information to
LISTSERV@UHUPVM1. To retrieve the article as an e-mail message
instead of a file, add "F=MAIL" to the end of the GET command.

Back issues are also stored at LISTSERV@UHUPVM1. To obtain a
list of all available files, send the following message to
LISTSERV@UHUPVM1: INDEX PACS-L. The name of each issue's table
of contents file begins with the word "CONTENTS."

Note that all of the above e-mail addresses are on BITNET. The
list server also has an Internet address:
LISTSERV@UHUPVM1.UH.EDU.
